

Rahul Khanna

Senior Product Manager

Mumbai · rahul.khanna@example.com · linkedin.com/in/rahulkhanna

SUMMARY

Product manager with eight years across payments and logistics. Led three launches from discovery to scale, most recently shipper onboarding at Northline.

EXPERIENCE

Senior Product Manager, Northline Logistics

2022 to present

Mumbai

- Owned shipper onboarding end to end, from first call to first shipment.
- Cut onboarding time from nine days to three by removing manual document checks.
- Ran a team of two product managers and four designers.

Product Manager, Kestrel Pay

2019 to 2022

Bengaluru

- Shipped the merchant settlement dashboard used by twelve thousand merchants.
- Reduced settlement queries to support by a third within two quarters.

Associate Product Manager, Kestrel Pay

2017 to 2019

- Wrote the requirements for the first collect-request flow and ran its rollout across three cities.
- Set up the weekly customer call that the product team still runs.

Business Analyst, Meridian Consulting

2015 to 2017

Pune

- Process mapping for two retail clients. Built the reporting pack the account team still uses.
- Ran the weekly status review for a client programme with four workstreams.

SELECTED WORK

- Shipper onboarding, Northline: a single flow for documents, KYC and first pickup, live in one quarter.
- Merchant settlement dashboard, Kestrel Pay: same-day visibility on every settlement, adopted across the merchant base.

EDUCATION

MBA, Marketing and Operations2013 to 2015

Deccan School of Management, Pune

B.E., Computer Engineering2009 to 2013

Western India Institute of Technology, Mumbai

SKILLS

- Payments systems fundamentals, industry short course

TALKS AND WRITING

- "Onboarding is a product, not a form", a product meetup in Mumbai
- Occasional notes on payments product work, published on his own site

LANGUAGES

English, Hindi, Marathi

Rahul Khanna

Senior Product Manager · 4 verified references

● **Response Integrity: Strong**

VALIDATED STRENGTHS

- ✓ Keeps a launch on plan when scope moves and says so early when it cannot be kept.

AREAS TO GROW

- ✓ Could hand the detail work to others sooner once a plan is set, rather than carrying it himself.

SUMMARY

Four referees describe a product manager who sets a clear plan, keeps it honest and carries the customer's voice into the room. He is still learning to hand the detail to others.

WOULD THEY WANT RAHUL ON THEIR TEAM AGAIN?

✓ ✓ ✓ ✓ All 4 referees would want Rahul on their team again.

REFERENCES

Direct Manager

Given March 2026

WHERE THEY EXCEL

Rahul took a delayed onboarding project and had it live in one quarter, with the team still talking to him afterwards.

WHERE THEY COULD GROW

He holds on to the detail longer than he needs to. Handing it over sooner would leave him room for the next problem.

Would want Rahul on their team again: Yes

REFERENCES, CONTINUED

Peer

Given February 2026

WHERE THEY EXCEL

The person you want in the room when the plan changes. He rewrites it in an hour and everyone knows their part.

WHERE THEY COULD GROW

Could push back harder when a date is unrealistic, rather than absorbing the pressure himself.

Would want Rahul on their team again: Yes

Client

Given March 2026

WHERE THEY EXCEL

Told us what would ship and when. It shipped then, which is rarer than it should be.

WHERE THEY COULD GROW

Sometimes assumed we had read the release notes. A short call would have saved a week.

Would want Rahul on their team again: Yes

REFERENCES, CONTINUED

Skip-level manager

Given January 2026

WHERE THEY EXCEL

Clear written thinking. His one-pagers were the ones I forwarded upward without editing.

WHERE THEY COULD GROW

Has more range than he uses. Should take on a team-level problem, not just a product one.

Would want Rahul on their team again: Yes

HOW THIS REPORT WAS MADE

Each referee was confirmed by email through a private, single-use link and wrote in their own words. Strengths, areas to grow and the summary are written from those words and never made stronger than what the referees wrote. Referees are shown by role unless they chose to be named.

Response Integrity describes how confident GoodWord is that these are real, independent references. It is based on verification signals, never on how positive the feedback is. This report is valid for 12 months from the date it was made.
