Named by consent: a referee's name appears only where that referee chose to be credited. Everyone else is shown by role.

Summary

Synthesised from 6 verified referees

References collected in October 2026.

Written by AI from the referees' own words. The strengths and areas to grow were drawn the same way. Each referee's full response is below, exactly as they wrote it.

A logical, technically strong problem solver who simplifies work through technology and data

Referees consistently value their ability to **solve problems through tech automation and data**, combining deep domain knowledge with a clear grasp of systems architecture. They are described as innovative and pragmatic, **breaking complex issues into solvable tasks**, and as able to build a data led business case for a major HRMS change.

Referees also note that they **guide team members without micromanaging**, creating an environment where people feel trusted, and that they are committed, hard working and handle pressure well.

For growth, referees suggest they could be **more assertive and visible in senior forums**, develop storytelling, stakeholder and conflict management, build knowledge material and keep more regular hours.

All 6 referees would want Amulya on their team again.
Each referee was asked this privately, in their own questionnaire.

Validated strengths

- Solves problems through technology, data and automation
- Breaks complex issues into clear, logical steps
- Guides and empowers team members without micromanaging
-

Areas to grow

- Could be more assertive and visible in senior forums
- Could develop stakeholder management and conflict handling
- Could build further experience in team management and grooming

Innovative, quickly finds solutions and workarounds

- Deep domain and systems architecture understanding
- Committed, hard working and calm under pressure

- Could invest more in building high quality knowledge material
- Could keep more regular working hours

Every GoodWord reference includes a growth area by design, and referees are asked for a real one. Its presence is a sign the feedback is candid, not a warning.

Referee responses (6)

Referee 1: Direct Manager

Direct Manager · Verified

Worked together 1–2 years · Amulya led the HR Tech and Analytics function at [company] and was part of my HR leadership team

Given October 2026

Where they excel

1. Technically solid
2. Functionally logical and clear
3. Extremely committed and conscientious- also always pragmatic and Honest in his commitments
4. Very hard working
5. Excellent team player
6. Manages pressure and stress exceedingly well

While working on a proposal to change our HRMS platform, he led the discussions with the founder with data, facts, logic and intent and managed to create a compelling business case which went through with the founder

Where they could grow

1. He can be more assertive when he has an input to give as he can be of even more value by being more expressive. For a young mind, he is professionally quite mature
Always felt that in my leadership team meetings he held himself back, being respectful of the seniors in the forum, more than required

Referee 2: Direct Manager

Direct Manager · Verified

Worked together 2–4 years · He was part of my HR Tech team

Confirmed through a work email

Given October 2026

Where they excel

He has deep domain experience and understands the architecture. He is able to scale out, understand what is the vision / purpose and then design systems and tools.

Where they could grow

He is still learning and growing. He has done well with leading juniors. Maybe with experience will master stakeholder holder and team management and grooming folks

Referee 3: Head of Rewards

Worked together 2–4 years · Team, projects and peer

Head of Rewards · Verified

Confirmed through a work email

Given October 2026

Where they excel

Design thinking, solutioning, problem solving, visualization and breaking down complex issues into solvable tasks, patiently guiding other team members and empowering and enabling them

Where they could grow

Story telling
Brand building
Conflict management

Referee 4: Peer

Worked together 2–4 years · Team and Function

Peer · Verified

Confirmed through a work email

Given October 2026

Where they excel

Building simplified processes and solving problem statement via tech automation and data.

Where they could grow

He is a strong one and goes by logic. Least strong, I haven't come across actually. He understands and if not he puts efforts to understand.

Referee 5: Direct Report

Worked together 1–2 years · Team

Direct Report · Verified

Given October 2026

Where they excel

Amulya stands out in the way he supports his team members. He provides guidance without micromanaging and creates an environment where his team members feel trusted and valued

Where they could grow

He could work on maintaining regular work timings rather than late nights :)

Referee 6: Head of IT

Worked together 2–4 years · Team

Head of IT · Verified

Confirmed through a work email

Given October 2026

Where they excel

Hi is quite innovative and the first one to always find a solution or find a workaround. With him around generally there are no show stoppers. He fits easily in the team and can be part of a hustle where quick results are expected. Never a dull moment.

Where they could grow

He has an opportunity to improve his visibility in the team. Put efforts in building high quality knowledge material.

Response Integrity

Strong

How confident we are these are real, independent references. It comes from verification and cross-checks, never from how positive the feedback is. Based on 6 referees.

What we check:

· Each referee answered from a private link sent to their own email address. Where that was a work address, the reference says so.

· Each referee confirmed how they know the candidate.

· We look for signs that each reference came from a different person, and not from the candidate.

· Each response is substantial and written independently of the others.

We do not check identity documents or employment records.

Referees are named only where they agreed to be credited · each referee confirmed by email · valid for 12 months
